Mission in Motion

Extending our healing ministry to the world

HONDURAS MAY 2011

21 team members, most strangers to each other, became “family” by the time we arrived in Honduras.

The patients came in great numbers, and stood in the heat, waiting for their turn to register.

Triage obtained vitals on the patients and screened for “immediate needs” to come to the front of the line.

Then our doctors got to work, seeing everyone who came.

Jim Doyle

Ivri Messinger and Paul Newby

Aided by the translators, our providers met the needs of those who came to us for care.

Lane Lee and Anna Flores

After seeing the doctor, patients needing more medicine came to our first-rate pharmacy.

We all had to get our hands on the babies!
They were just too cute!

The faces of the children touched our hearts!

We were inspired by the graciousness of the older patients. Whether they got glasses, or help getting back home, their gratefulness reminded us to count God's blessings in our lives.

We ate together, made new friends, renewed old friendships, had some fun and “hung out” together.

We are thankful for the opportunity to Extend the
Healing Ministry of Christ in Honduras.
We will forever be changed, having been the conduit for
His Love in that place.
